Funeral Home Equipment

Ultimate 1000 Lift

A top quality, dependable body lifter used by funeral homes, morgues & hospitals worldwide for years.

- 450kg lift capacity
- Lifts remains, casket and more
- Assists in dressing remains
- Reduces labour cost - only one person required for operation
- Custom track system
- Lifts unembalmed and embalmed
- Straps offer maximum range for lifting floor to ceiling
- Easy to clean hygienic design
- Built to last a lifetime

Moving remains or caskets is no longer a two person operation. No more strains or waiting for help, the Ultimate 1000 can cover ALL the lifting you need.

Each lifter comes with 2 sets of Glidotec straps (8cm/15cm wide), casket straps and a head sling. Options include an integrated load scale & a "Freedom pivot" (up to 180 degrees of pivoting).

The Stepper

An electric stair climber that's a must for your funeral home!

No more straining lifting the deceased up or down stairs, The Stepper climbs and descends flights of stairs with ease. Easily maneuverable across all kinds of surfaces and spaces, along with an easy 3 phase lifting process, The Stepper is just like a second set of hands!

The Stepper includes the following:

- BodyGlide Board - Made from HDPE plastic, with multiple holes allowing for different strapping configurations
- 2 Sets of Straps - Adjustable seat belts specifically designed for The Stepper
- Battery - 24VDC battery with dedicated charger

- 170kg weight capacity
- Dimensions - 30 x 50 x 200cm
- Whole system weighs 25kg
- Comes with the QuickStand, a 2 stage prop stand
- Options include body pouch, car battery charger, extra battery & extra straps

Embalming Instruments

*Instrument
Design Mfg. Co.*

Instrument Design Mfg Co is a specialised manufacturer that offers embalming instruments & related products. Constructed from stainless steel while remaining corrosion resistant. Products include:

- Arterial, Drain & Nasal Tubes
- Valves & Manifolds
- Injector Needles
- Hydro & Post Aspirators
- Shafts & Washers
- Trocars

Vacua Hydro Aspirator

- Back Flush Valve
- AUS/NZ Tap Thread Connection
- ASSE 1011 Backflow Preventer
- Replaceable Venturi
- Optional Quick Disconnect + 12.5cm extension

Accessories available:

- Quick Connect Inlet Tube
- Replacement Backflow Preventer
- Hydro Aspirator Extension
- 1/2" Pipe to Hose Adapter

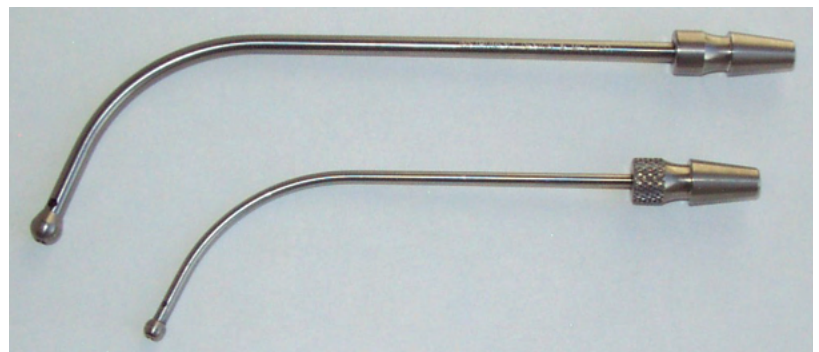

Vacua Nasal Aspirator

All Stainless Steel Construction with a smooth radius probe end. The tube has 2 side inlet holes & centre end hole for efficient extraction of fluids.

Options Available:

- Adult Vacua Nasal Aspirator + Slip Hub
- Adult Vacua Nasal Tube + Male Quick Connect
- Infant Vacua Nasal Aspirator + Slip Hub
- Infant Vacua Nasal Tube + Male Quick Connect
- Female Quick Connect for hose end

Trocars

Available in 3/8" & 5/16" diameters, these trocars features stainless steel tubing & fittings, providing an all round smooth surface making it easier for clots and fatty tissue to pass through without clogging.

The trocar points feature precision machined threads, clean see through slots & sharp uniform edges and points.

- Precision hardened trocar point
- Easy to remove safety cap
- Lightweight, high performance grip
- Removable slip hub
- Side mounted trocar holder for benches also available

Ceiling Mounted Hose

Also available is a ceiling mounted hose, designed to make the washing & embalming process easier.

- Automatic hose reel, cast aluminium drum with swivelling outlet strip
- Rapid-SCS controlled reeling technology
- Multiple detents per round
- Max. Pressure 12 Bar / 170 PSI @ 20°C
- Includes 20 metres of NPS 12 hose + spray head

Model 03-310-SH

Mortuary Cool Rooms

With a number of options for different size mortuaries or morgues, these cool rooms are super sturdy and are fully self supporting. Each wall and floor component is made out of 80mm CFC free polyurethane rigid foam, sandwiched by galvanised, powder coated steel plates. They are assembled onsite, with slot and key joints and integrated hook fasteners which are also made of galvanised steel. A stainless steel interior/exterior option is available.

Units for Trays or Coffins

Doors, 2 to 4 Levels

- 2 levels, capacity of 2-4 body trays
- 3 levels, capacity of 3-15 body trays
- 4 levels, capacity of 4-20 body trays

- Doors with lockable hatches & chrome hinges
- Doors are 68-80cm wide, height depends on model (1.7 or 2 metres)
- Comes with built in shelves with rollers

Dressing Tables

WT 10/650: Mobile Stainless Steel Washing & Dressing Table

The table is constructed entirely from ANSI 304 stainless steel. The supporting surface contains a high surrounding border, a negative inclination near the drain and sits on 4 steerable wheels (with brakes) with special lubricated roller bearings. 350kg capacity, with a fixed height of 85cm.

WT 10/670: Foldable Stainless Steel Washing & Dressing Table

- High surrounding profile border
- Negative inclination arranged diagonally to the drain
- 220 x 75 x 85cm (W/D/H), 200kg capacity
- Compatible with INNS 10/680 Installation Column

Mortuary Trolleys

Lift and Transport Mortuary Trolleys are available in a large range of options to suit all requirements and budgets. They provide an ergonomic manual handling solution for handling and loading of body trays and coffins in to storage racking. All models are equipped with a roller track made of stainless steel equipped with rubberised maintenance free rollers for easy and ergonomic loading of trays.

HTW Transport Trolleys

The HTW transport trolley is designed to retrieve and transport the deceased between the ward and mortuary with reduced effort.

HTW 50/100: Lift and Transport Mortuary Trolley

- Movable with 4 solid 125mm rubber wheels, 2 of them lockable
- Specially constructed for transferring to morgue refrigeration units up to 4-levels
- Optimal moving through low dead weight
- Upper construction with one roller deck made of stainless steel consisting of 5 lockable rollers
- 32cm at its lowest point, 165cm at its highest point

HTW 51/100: Stainless Steel

- Complete stainless steel construction

Options

Available for all HTW trolleys.

HTW 50/130: Electric Height Adjustment

- Featuring a 12V electric-hydraulic unit for vertical adjustment, controlled via an UP / DOWN foot switch

HTW 50/140: Integrated Scale

- Digital scale with single-button operation for easy handling with easy-to-read LCD display

HTW 50/101: Side Load

- Specially constructed for transferring of sideways loading morgue refrigeration units

HTW 50/110: Slew Ring

- Can be slewed through 90° to the right and the left

FAT-HTW-24: Traction Drive Unit

- Fitted with twin tyres and easily moved back and forth
- The speed can be controlled via the hand trigger
- Designed to facilitate safe movement on slopes and long routes
- Equipped with a soft start function as well as a safety lock with automatic STOP function to prevent injury

MTR-RB-24V: HTW Drive Roller

- Electrical drive roller automatically loads body trays on/off trucks onto racking
- The drive roller is operated through forwards/backwards buttons located safely away from the load

TW 52/500: Height Adjustable Mortuary Trolley

- Movable with 4 solid 125mm rubber wheels, 2 of them lockable
- Integrated double hydraulic unit for foot actuated height adjustment as well as tilting
- Upper construction with one roller deck made of stainless steel consisting of 5 lockable rollers
- 53cm at its lowest point, 90cm at its highest point

TW Transport Trolleys

**Made in
GERMANY**

- Compatible with INNS 10/680 installation column

Body Trays & Racking

Stainless Steel Body Tray

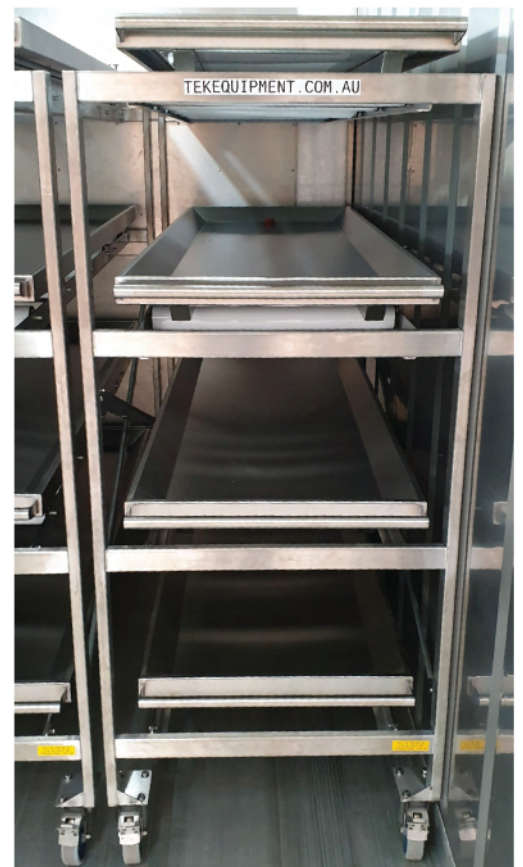

These body trays have a rugged construction made entirely of stainless steel. They are fitted with large handles and closed skirts for easy and ergonomic manoeuvring. The seamless design limits the potential for build-up of debris that may result in contamination.

- Stainless steel material (ANSI 304)
- 2 solid carrying handles
- Available in a variety of options including drain, larger widths and higher capacity
- Larger trays available
- Drain and plug system available

Different models available, ranging in load capacity from 200kg to 450kg, with sideway loading trays an option (200kg capacity).

Different widths available:
620mm (Standard) / 660mm (Wide) / 750mm (Bariatric)

Mortuary Racking

The shelves serve to store body trays or coffin plates and is installed directly within a morgue refrigeration unit, to be loaded by a lift and transport truck. The structure consists of rugged stainless steel profiles which are equipped on each level with five carrying rollers of corrosion-resistant material with plastic coating and maintenance-free roller bearings and a locking device.

- Rugged stainless steel design
- Up to 350kg capacity per level
- 2 to 5 levels, ranging from 1 to 1.9 metres in height
- Tray or coffin storage

Mobile Mortuary Racking

- Movable with 2 fixed castors & 2 steerable (with brakes) castors
- 125mm wheels with special roller bearings

Constructed the same as the free standing racking, the mobile racking features 4 heavy duty 125mm wheels; 2 fixed castors and 2 steerable with brakes. Can be supplied to suit desired capacity and available area.
