Lift and Transport Truck HTW 50/120 with Lateral Tipping Device

The lift and transport truck has a rugged, torsion-resistant frame structure and is made of powder coated steel (grey – RAL 7035). Additionally it has a smoothly running, integrated hydraulic unit for foot-actuated vertical adjustment for easy handling. 4 steerable solid rubber wheels, 2 of them lockable, 1 enabling locking as regards to the direction, d = 125 mm with special roller bearings, permanently lubricated and maintenance-free, which ensure an absolutely noiseless movement. A stainless steel roller track comprising 6 carrying rollers of corrosion-resistant material and plastic coating has been arranged on top of the truck. A holding device secures the body tray or coffin plate lying on it. The slide handle of the lift and transport truck can be removed. The additional structure (lateral tipping device) can be tilted up by approx. 30° to the right side. It is acting with the integrated hydraulic unit (controlled by reversing valve). An anti-collision buffer is mounted to the front end.

Technical Data:

Dimensions lowest Position W/D/H: $2150 \times 750 \times 320 \text{ mm}$ Dimensions highest Position W/D/H: $2150 \times 750 \times 1650 \text{ mm}$

Carrying capacity: max. 250 kg
Dead weight: approx. 100 kg

Tipping: approx. 30° to the right side

Material: Steel

Colour: Lightgrey RAL 7035 (powder coated)

Type: HTW 50/120 Article No.: 050.040.010
